The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Landrum et al. (U.S. Patent 5,660,262).

Landrum et al. turning cases C moving on a conveyor by providing a turning device 10 which moves in the direction of case travel at a speed less than conveyor 13 is moving case C, contacting case C with the turning device while the turning device is moving in the direction of case travel and the case is pushed against the turning device so that it is turned about an axis normal to the direction of travel.

Claims 2-4 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 5-13 are allowed.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Any inquiry concerning this communication should be directed to James R Bidwell at telephone number (703)308-1144.
